# Analog ICs

## Device Data

## Vol. I

This publication presents technical information for the broad line of Analog and Interface Integrated Circuit products. Complete device specifications are provided in the form of **Data Sheets** which are categorized by product type into ten chapters for easy reference. **Selector Guides** by product family are provided in the beginning of each chapter to enable quick comparisons of performance characteristics. A **Cross Reference** chapter lists Motorola nearest replacement and functional equivalent part numbers for other industry products.

One chapter is devoted showing all of the **Tape and Reel Options**. All **Packaging Information**, including surface mount packages, is provided in another chapter.

Additionally, chapters are provided with information on **Quality and Reliability Assurance** program concepts, high-reliability processing, and abstracts of available **Applications and Product Literature**.

The information in this book has been carefully checked and is believed to be accurate; however, no responsibility is assumed for inaccuracies.

Motorola reserves the right to make changes without further notice to any products herein. Motorola makes no warranty, representation or guarantee regarding the suitability of its products for any particular purpose, nor does Motorola assume any liability arising out of the application or use of any product or circuit, and specifically disclaims any and all liability, including without limitation consequential or incidental damages. "Typical" parameters can and do vary in different applications. All operating parameters, including "Typicals" must be validated for each customer application by customer's technical experts. Motorola does not convey any license under its patent rights nor the rights of others. Motorola products are not designed, intended, or authorized for use as components in systems intended for surgical implant into the body, or other applications intended to support or sustain life, or for any other application in which the failure of the Motorola product could create a situation where personal injury or death may occur. Should Buyer purchase or use Motorola products for any such unintended or unauthorized application, Buyer shall indemnify and hold Motorola and its officers, employees, subsidiaries, affiliates, and distributors harmless against all claims, costs, damages, and expenses, and reasonable attorney fees arising out of, directly or indirectly, any claim of personal injury or death associated with such unintended or unauthorized use, even if such claim alleges that Motorola was negligent regarding the design or manufacture of the part.
